# Grapevine 1958

## TIMELY DATA CIRCULATED WHILE CURRENT

Reports on total state tax effort for higher education, including state tax appropriations for universities, colleges, and community colleges.

Number 402

May-June 1995

Page 3253

#### IN THIS ISSUE

APPROPRIATIONS PER CAPITA AND PER \$1,000 PERSONAL INCOME......... 3254 Caution needs to be used in interpreting these comparative measures. The principal limitation is that only state tax appropriations are used to calculate the measures. Were local taxes, student tuition and federal revenue included, a different picture of higher education support likely would emerge. complete analysis would need to include these revenue sources in addition to state taxes. However, as the principal source of funds for the public sector and as an important revenue source for the private sector, these measures using only state taxes are of value if interpreted with these limitations in mind. Those on the mailing list will receive information about accessing computer networks as soon as it becomes available. **AVAILABLE NOW** State Higher Education Appropriations, 1994-95 Order from: State Higher Education Executive Officers 707 Seventeenth Street, Suite 2700, Denver, CO 80202-3427 Fax:303-296-8332 Tel:303-299-3686 \$15.00 prepayment preferred

#### **GRAPEVINE IS GOING ON LINE**

This issue of <u>Grapevine</u> is the final one which will be circulated nationwide in the format which has been in continuous publication since 1958. For the past two years, the <u>Grapevine</u> editors have been looking into the possibility of putting the data "on line." Beginning with the new reporting cycle for fiscal year 1995-96, this possibility is becoming an exciting reality. About October, the state tabulations will become available through the <u>Chronicle of Higher Education's</u> network. The <u>Chronicle</u> is expanding its service to include more of its "Fact Files," including <u>Grapevine</u>. While all plans have not been finalized, preliminarily, the network fact file will include revised figures for one or two of the preceding fiscal years as well as the current year. There are also investigations under way to put the complete state tabulations on an Illinois State University server. The motto of <u>Grapevine</u>, "timely data circulated while current," is becoming more timely than could have been envisioned when this research report was begun by the late M. M. Chambers nearly 40 years ago.

All persons currently on the <u>Grapevine</u> mailing list will receive information about computer access as soon as it is available.

While access to one of the on-line systems is available to most readers of <u>Grapevine</u>, there may be those who either need or prefer "hard copy." Two opportunities will continue to be available. The first is an October issue of the <u>Chronicle</u>. Each of the state tabulations is presented there in a somewhat abbreviated form for the current fiscal year. There are additional summary tables and a map of percentages of two-year gain.

The second opportunity to obtain hard copy is the full, complete, and detailed set of Grapevine data which are published each year by the State Higher Education Executive Officers. In addition to the state tabulations, this annual end-of-the-year report will be expanded to include more tables which were formerly published only in Grapevine. Among these are the appropriations per capita and per \$1,000 of personal income, appropriations for community colleges, appropriations for multi-campus universities and consolidated systems and a table of local tax sources which support higher education, primarily community colleges. (To purchase the 1994-95 edition, see the front page.)

Reprints of the 50-state summary table may be found in other documents. Among them are the publications of the regional educational boards--New England Board of Higher Education, Southern Regional Education Board and Western Interstate Commission for Higher Education--and the <u>State Higher Education Profiles</u>, National Center for Education Statistics, U.S. Department of Education.

With the proliferation of computer access to Internet and other communication programs at colleges and universities, libraries and homes, it appears that moving in this direction will be a service to many more persons than are now on the <u>Grapevine</u> mailing list. However, if there is an immediate need for information about a state's appropriations, a limited number of printed copies of state tabulations and other tables will be available via mail or fax. (Tel: 309-438-5405)

Bittersweet emotions accompany any major changes. <u>Grapevine</u> has a prestigious past. Begun as a small newsletter sent to a few key persons in each of the states, it has expanded into a primary source of information related to state support of higher education. That purpose continues. The interest and loyalty of thousands of <u>Grapevine</u> readers are recognized and appreciated. It is the hope of the Editors that these technological enhancements will provide information to an expanded higher education community in the future.

# Historical Files Updated

During the next few months, the <u>Grapevine</u> staff will update the data base. The historical files are in tabular form for each state for each fiscal year since FY1976-77. The software program used is LOTUS 1-2-3, Release 2.01. The disks will be available for purchase in early fall. Price: \$50.00. For more information or to order, call Rusty Higham, 309-438-5405.

### Staff Changes

Managing Editor Gwen Pruyne will retire at the end of July. For over 23 years, Gwen has been the voice on the telephone for many of you. She says that chatting with you has "personalized" the <u>Grapevine</u> effort and made it more enjoyable. Rusty Higham now becomes the person who answers the phone. Rusty has handled the data entry for the past two years and will assume more responsibilities during the next academic year. Edward Hines continues as <u>Grapevine</u> Editor. He will be ably assisted by Melody Klink who joined the staff on June 5. All of the <u>Grapevine</u> staff have multiple assignments in the Center for Higher Education and Educational Finance, so they may need a little time to respond to your requests, but they look forward to remaining in touch with those interested in state higher education support.
